Pediatric Psychiatric Urgent Care

Pine Rest is proud to announce the launch of Pediatric Psychiatric Urgent Care, a same-day service designed specifically for children and adolescents ages 6–17 experiencing urgent emotional or behavioral health concerns.

Open Monday—Thursday | Noon—6pm

**300 68th Street SE
Building A, Entrance A1
Grand Rapids, Michigan**

The Pediatric Psychiatric Urgent Care provides same-day, in-person, behavioral health assessments for young people facing challenges such as:

- Anxiety
- Depression
- Panic attacks

- Behavioral concerns without aggression
- Disordered eating behaviors
- Medicine evaluations
- Suicidal thoughts or feelings
- Self-harm urges
- Substance use concerns
- Difficulty managing daily responsibilities

This service is intended for situations that require urgent mental health support but not emergency medical attention. Healthcare providers and their clients may visit the service's web page to learn when psychiatric urgent care is appropriate versus when to seek help at a local emergency department.

Compassionate Care from a Pediatric-Focused Team

During a visit, children and their families will meet with a multidisciplinary pediatric behavioral health team that may include licensed therapists, psychiatric providers and medical assistants. Each visit includes:

- A crisis assessment
- Initial treatment recommendations
- Education for the child and his or her family
- A personalized after-care plan
- Referrals for ongoing care when needed

Expanding a Continuum of Care for Kids & Teens

The Pediatric Psychiatric Urgent Care is currently operating as a pilot program and will be expanded when the new Pine Rest Pediatric Center of Behavioral Health opens this spring.

Most commercial insurance plans, Medicare, and Medicaid are accepted, and financial assistance is available. Families with Medicaid are encouraged to call ahead.
