## **TMS Therapy for Depression & OCD**

WZZM's Catherine Behrendt visited with Lead RN Rebekah Becker at Pine Rest's Neuromodulation Clinic recently to learn about Transcranial Magnetic Stimulation (TMS) therapy--a groundbreaking treatment for depression and obsessive-compulsive disorder (OCD) and a gamechanger for the millions who don't find relief with traditional treatments or have issues with medication side-effects. Becker explained how TMS works, discussed its benefits and demonstrated the treatment chair.

## Understanding Substance Use Disorders

There are more deaths, illness and disabilities due to the use of alcohol and other drugs than any other preventable health condition. Substance use disorders are linked to a variety of health problems including cancer, cardiovascular disease, cirrhosis, dementia, depression, gout, infectious diseases, pancreatitis and seizures. It is also linked to poorer performance on the job or at school, difficulty in keeping a job and relationship problems.

We created *Understanding Substance Use Disorders* for you to share with your patients and others in your organization. It explains how addiction is a medical disease and not a moral failing, treatment options, and what families need to know. It is available online and the printed version can be ordered through our website, along with our other publications. Please note the number of copies you'd like in the comments section.

## 2024 MHA Community Impact Report Highlights Pine Rest Pediatric Center of Behavioral Health

The Michigan Health & Hospital Association (MHA) has unveiled its 2024 Community Impact Report, spotlighting 15 hospital-led programs that improve healthcare access, support the workforce, and promote community wellness across Michigan. We're honored to have our Pediatric Center of Behavioral Health highlighted in the publication. Opening in 2026, the center will provide specialized treatment programs for autism, eating disorders, ADHD, substance use disorder, plus pediatric psychiatric urgent care among others.
