## Psychiatric Technician Job Opportunities

Patient care providers work directly with our patients and residents to help them achieve their treatment goals. Plus, patient care providers work closely with a team of highly trained clinical staff including registered nurses, therapists, social workers, psychiatrists and other advanced practice professionals. Our employees continually model Pine Rest's mission statement and organizational values. Healing moments begin with you.

### Skills you will gain as a Psychiatric Technician!

- CPR certification
- De-escalation and physical management training
- Activities of daily living
